Both old Cases on the Books, and but little new to add about them this year. Mrs. McQuiggan, and Mrs. Rearden are living in the same house, and visitor told them that if they would give up one stove, and make use of the same stove for both, he would recommend them for coal through the winter. The wife is particularly a nice industrious person who does her best to Keep her family respectable. Recommended to be allowed a little Coal only say twice during the Winter.

East side North of Sydenham St. Husband and wife and 6 Children. only a few Months out from England. came to Oshawa first of all, where Tounsley got Employment at one of the large manufacturing establishments, at good wages, but when the winter began, they reduced their staff, and he came up here, hoping to obtain work at some of the Manufactories here. He has been unsuccessful so far, and he and his family have consequently been in great distress; when Visitor called Friday they were not only in want of fuel and food, but the children were very badly off for clothing. Both Tounsley and his wife appear to be extremely respectable people. He has most excellent testimonials from various Employers in England. He has some prospects of being employed at Hamilton's Foundry in the course of about 3 weeks. In the mean time, Visitor strongly recommends them for a liberal allowance of Coal once, and bread for one Month. Visitor feels sure they will not look for assistance of any kind after the Father has obtained Employment.

329. Catharine Elamonge: No. 9 Dalhousie St. 30 years old. A Widow with 3 Children. boys under 14 years. The eldest learning the Shoemaking but gets no pay. Recommended for 8 lbs. bread & Coal 3 times. R.C.

330. Johanna Dunn: rear 18 Stanley St. since applying hired out.

331. Isabella Young: 33 Bell St. off of River St. Husband and Wife, and one young Child. English Emigrants, came out in May last. Husband a Carpenter, did well last summer. took up one of these Don Lots, and built himself the partly finished Cottage in which they are now living. Mr. Moulds for whom Young was working, failed, and since the Winter set in, Young has been the greater part of the time out of work. Now they have next to nothing wherewith to pay for their food and fuel, and meet the instalments on their lot. They are very respectable decent people, and visitor recommends them strongly for one good allowance of Coal, and bread for a Month.

332. Emma Row: 35 Bell St. off of River Street. Husband and Wife and four young Children, and an elderly man Rows father. Row is a Marble cutter by trade, but since his own work has been slack, has been doing any odd job he could get to do. Their Case is much the same as the Youngs, except that their family is larger, and the have consequently been more pinched for everything. Visitor recommends them quite as strongly for one liberal allowance of Coal, and bread for a Month. Unless something very unforeseen occurs, such as sickness, Visitor dont think there is any fear of either of these parties ever applying for relief again.

333. Catharine Johnson: rear of 44 Duchess Street. was not in when Visitor called.

336. Catharine Johnson: in Case 333. Visitor has seen her, and from what she says her circumstances are well know at the House. Her husband is now in the Jail Hospital, she herself suffers so much from Rheumatism that she cannot earn her own living. Visitor supposes she might have a load of Coal and the bread. but has strongly advised her as she has no children, if her husband is pronounced incurable to apply to be taken into the House.

337. Elisa Waters: in Case 317, Doctor examined, cannot make out her complaint, does not think there is much the Matter with her. allowed to remain a few days longer.

Hon. Mr. Allan, Visitor, made enquiries at Lymans and found it correct as being employed there at [dollars] 6. a week, and has no doubt that the report about Money in P.O. Savings Bank is true also. It is therefore recommended that the relief be stopped.

Friday, 9th February 1872.

363. Robert Smith: 154 Jarvis St. Husband wife and four young Children, the youngest an infant a couple of Months old. English Emigrants came out last October. The Husband was a Butler at home. has good testimonials. lived for a long time in the service of a Gentleman well known to Visitor. Came out to the Country under the idea of "bettering" himself. thought "situations" and employment of all kinds to be got for the asking in Canada! Paid his own passage out and that of his family. arrived in October. Wife confined soon afterwards, passage money and Doctors bill soon exhausted [exhausted] all their funds. Took the first employment he could get at Wheeler & Bains Tinsmiths, putting up stoves &c. staid with them as long as they had anything for him to do. They give him an excellent character. Idle now for some weeks. Wife a particularly respectable woman, hopes to earn something by Millenery [millinery] as soon as she can get about. at present they are living, eating, and sleeping, in one little room on Jarvis Street, about ten feet square. and with no means left to pay for fuel or food. Visitor thinks he could very likely get the husband a situation as indor [indoor] servant, but he has no clothes such as would be required left now, and of course no means of buying them. Visitor will however try what he can do to get him employment of some kind, and in the Meantime would recommend him for a good load of Coal, as the fuel is the main difficulty they have to contend with.

They came out from England last Autumn, and were sent up to Guelph by the Emigration Agent, but Mr. Bright failed to get any employment, and since their return to Toronto, they have been nearly in a state of starvation. They have a Young family of six Children. Visitor is in hopes they will be able to manage to get into a small house off of Jarvis St. and in the Mean time, Visitor wishes the Committee to authorize Mr. Duckett to send them one extra load of Coal when visitor sends word that they have got into the House. Received the address and sent 1200 lbs. Coal.

365. Amelia Partridge: Corbett Street. Visitor recommends an allowance of Groceries and bread on account of husbands illness.

366. Mary Godfry: 25 Victoria St. to have her ration of 4 lbs. bread increased to 6 lbs. and to have allowance of Groceries on account of sick husband.

383. Arthur Potter: Sydenham Lane. East side, North of Sydenham Street. Husband Wife and 6 Children. Husband formerly a Messenger in a Bank at Quebec. appears to be a very respectable man. The Wife Visitor did not see she being very ill indeed. of all the boys there is only one the second son doing anything and he is earning [dollars] 1. a week. to see the Wife, and would recommend a load of Coal and an allowance of bread and a little tea & sugar for the wife. Potter has hopes of being taken in as a Messenger at the Dominion Bank here. if he is, they will of course be no further burden on the House. at present it is a Case of absolute want.

384. Rebecca Clark: 51 Sydenham St. Husband and Wife and 4 Children. Case was visited and reported upon last year, and a Man of the Name of Reid, a packing box maker, stated that they were in work at the time. Visitor cannot ascertain absolutely now, apart from their own statements, whether they have been so destitute of work, as to entitle them to the relief they ask for. The woman is one of your "whiney" peevish complaining sort! and the Man a discontented sort of a fellow! One perhaps had better give them the benefit of the doubt! and allow them one small Load of Coal.

385. Ann Carligan: Bell St. 3d house from River St. North side. Husband wife and two Children, living in a very primitive shanty on one of the little allotments laid out by Mr. Lamb. Visitor thought at first that they and the next Case were almost all like the other "Settlers" in this new quarter, "English Emigrants" or at least Emigrants, for visitor Knew Cardigan could not be English! found however that both Carligan and Plewman had been living in Toronto for the last 20 or 30 years! Carligan is a Shoemaker, who seems to have bought a lot at one time in the rear of Osgood Hall, and to have lost that, and now he has tried his luck on the Don. The worst of it is, he does not make boots and shoes enough to support his family, and Visitor thinks will have hard work to pay for his lot.

386. Sarah Plewman: just opposite to above, south side of Bell St. 2 doors from River St. Husband and Wife and 2 Children. much the same story. Plewmen works for McBean the Builder when they have work for him. he also has a shanty, the Lumber of

which he got from McBean, and Visitor supposes pays for it in work, there is no doubt that Plewman has had little work for some time, and Carligan will probably never make anything by Shoemaking where he is! but neither Case impressed visitor favourably. They do not seem to stand on the same footing as the other "Settlers" there, who have only just come to the Country, who have had to buy all their experience, and the majority of whom visitor thinks after this year, will not need further assistance. However Visitor would like to err on the charitable side, and if the Board think well to allow them each a very small quantity of Coal.

387. J. Johnston Smith: 176 Strachan St. An Englishmen out here a year. Steady and industrious but seriously ill from constant vomiting since last July. has been in bed since before Xmas and his wife is expecting to be confined shortly. There are 2 Children, a boy 4, and a girl 2. Visitor recommends that Coal be sent at once, as neither is able to go to the House, also a liberal allowance of bread and groceries.

389. Maria Cardiff: at Mrs. Christies, Corner of Tecumseth & Adelaide St. Irish, 18 years in Toronto. Mrs. Christie reports that they have taken the girl in as a matter of Charity. that her arm and leg have been broken and that she is able to do very little work, so that she is in a good measure dependent upon others for support. Recommended Coal.

390. James Bellingham: 102 Richmond St. west. A Married Man. just moved from 107 Queen St. Aged 46, Wife aged 36. Chof England. about eighteen Months from England. has one Son aged 20, far gone in consumption, if not for this poor sickly boy, they would not apply for relief. on that account Visitor recommends 600 lbs Coal, and 6 lbs of Bread weekly and soup.

779. Alice Torphy: rear 269 Queen St. West. A Widow aged 42. R.C. Irish. has 2 Children, a girl 14 & a girl 9. the eldest at work stitching books, & earns [dollars] 2.00 a week, the youngest at School. Recommended for bread as usual, and a full allowance of Coal.

780. Elisa Holland: 13 Renfrew St. Irish. ChofEngl. Husband away. 2 Children, one 3 years, the other 9 months. Recommended bread & Coal.

781. Mary Peacock: 35 Camden St. English. ChofEngl. In Toronto since last May. Four Children, 2 girls, 5 years & 18 months, 2 boys, 7 & 8 years. They have only been in this part of the Town about a fortnight and therefore strangers in the neighbourhood. husband a labourer, but has been ill a good part of the time since his arrival in Toronto, and at present is out of Employment, and indeed unable to work if he could get it. It seems to Visitor a case which requires assistance and therefore recommends bread & sick allowance.

782. Robert Robertson: Aged 56. Native of Scotland. Presbyterian Church. 17 years in Toronto, afflicted with palsey for the last 15 years. Not able to do anything for his living. his Wife 56 years of age ay present in General Hospital with a bad hand. Robertson has no friends to do for him, and is utterly destitute. Wishes to become an inmate for a time.

783. Mary Mandeville: 114 George St. This Case is not a new one and Visitor thinks has reported upon it and the woman has received assistance in former years. She is a widow with a family of young Children. She goes out to scrub and wash. The eldest boy is working

783. in the planing and sash factory on the corner of Queen St. Visitor thinks it is one of those cases where the coal and bread for the winter are well bestowed. the bread say for two months and the coal 3 times.

784. Richard Leader: 335 Queen St. East. Husband Wife and 5 Children, all inhabiting a wretched cellar in a little house on Queen St. The wife is expecting her confinement every hour. The husband a miserable mortal, is out of work, and has been out of work for some time. Acting upon the hint giving in Superintendents Note, Visitor made enquiries at the Police office, and found that the Wife had been brought up, upon a charge of threatening to burn the House, and upon Visitor putting the question to the woman herself she did not deny the charge, but said that she had uttered the threat in a moment of desperation, when she thought they were going to be turned out and the house let over their heads! Of their destitution there can be no doubt. There was one bed for the husband and wife and 5 Children (all young). Visitor has no doubt whatever that at this present time, the man finds it next to impossible to get work, and when the woman is confined, they will have no means of providing proper food for her.

under the circumstances therefore, they ought to be allowed bread say for the next two months, and some tea & sugar and oatmeal for the woman when she is confined, they will have to have coal when it is given out. once. if the man is still out of work after that, the case could again be referred to Visitor.

785. Jane Atkins: 148 Pine St. Husband Wife and 5 Children. English. Emigrants out some 3 years. Visited them 2 years ago, when they first came out, when they got assistance from the House. Have done pretty well since. but the husband has been ill and out of work. The eldest daughter who was in place, has come home ill, and a boy who was also in place, is idle, in consequence of the factory in which he was at work having stopped. It will be a month, at least, before the daughter is fit to go to service again, but Visitor hopes he has a place for the boy. Thinks they might be allowed bread for a month, coal once. Then the Case to be again referred to Visitor at the end of that time.

786. Margaret Baker: 504 King St. East. Husband wife and three children. Came out about 18 months ago from England. The husband was at

at one time a sailor, and has also been employed to drive a stationary Engine and other work of that kind. This last summer he was a sort of caretaker on board a yacht here. He has been doing nothing for the last 6 weeks, except occasionally to saw a little wood. Visitor has not evidence of it beyond his appearance, but is strongly impressed with the belief that Baker drinks. and that is the cause of much of the trouble. The wife seemed a respectable woman but whit [with] an infant 17 Months old she cannot do much. Now as matters are at present, Visitor does not see what prospect there is for a man like Baker getting work perhaps for the greater part of the winter, and even supposing he does drink, what are we to do with the wife and Children? They will have to be allowed bread at all events. and Coal say once. Baker has undoubtedly suffered more or less from fever and ague this autumn. certainly he is at present a most miserable object.

787. George Street: in Case 745 was brought back to the House. The Child is apparently consumptive.

No doubt some of the addresses have been incorrectly given, but in addition to this the numbers on Queen St. East have been so altered and muddled. old and new numbering jumbled up together, that it is impossible to find a particular house, unless described or identified in some other way. For instance let Mrs. Dunlop say whether she lives on the North or South side of Queen St. and between what other Streets, such as between Parliment [Parliament] & Pine, or Berkely [Berkeley] & Parliment [Parliament] [etc.] Visitor spent a great deal of time in trying to find these people out, and cannot undertake to try again, without some such particulars as mentioned to help in the search.

House of Industry, Toronto 19th Sept 1874

563. In conformity with the requirement of "the Charities Aid act" of last session I this day made an inspection of this Establishment and found it, in all its departments in the best possible condition of order and cleanliness. The dormitories on the female side of the House were particularly tidy and Comfortable in their appearance and the beds and bedding throughout the Entire Establishment, of which 100 ~~are~~ ^{^were^} made up, were found in a well Kept state, with the most commendable neatness and cleanliness everywhere apparent. Considering the class of people in the House and the difficulty of Enforcing personal cleanliness too much cannot be said in praise of the state in which both the House and its inmates were found at this visit, ~~and~~ ^{^T^} this condition of things is the more creditable to Mr. Ducketts management when ^{^it^} is Known that the supply of water is far from being sufficient and is confined to what is obt{ai}ned from one well and the roof. In an Establishment of this Kind there should be, both for domestic and sanitive purposes, an unlimited and never failing supply of water and it is very clear that that can only be obtained here ~~by~~ from the City Water Works to which source ~~he~~ I would venture to direct the attention of the Board of Management, and the City authorities who are Equally interested in the good management of this House. The {oper}ation of protection from

fire by the placing of a tank in the roof, should al{so} receive attention at the same time.

It is also most desirable that the root cellar in the basement of the main building should be removed to the yard as neither the house n{o}r the vegetables are improved by its presence there.

The inmates in the House number today 70 of whom 41 are men 21 women and 8 children. With the exception of six who were not in the House at my visit I saw all of these inmates. Their apper{an}ce denoted that they were well cared for, they were all decently clothed and, having been present ~~at~~ when dinner was served, I can also say that they are well fed. The meal consisted of soup, boiled beef and 1/2 [pound] of bread to Each inmate the quality of all being good and wholesome.

Fifty three of the 70 inmates have been residents of the House from one year up to 20 years, and 17 were admissions of the past twelve months In addition to the internal operations of the House, which shew an average daily residence of about 87 inmates, the External operations ^{^in the way of aid to fam{i}lies^} and the relief afforded by the casual ward and the soup Kitchen are very large and Extended ~~The~~ [illegible] I will again have pleasure in reporting to Gove{r}nme}nt my Entire satisfaction with the manag{emen}t of this House

1115. Charles Davies: in Case 1111, Doctor Visited, and found the family very destitute. The Man is far advanced in Consumption, the right lung being affected throughout to such an extent as to render it useless, but the left is comparatively good yet. Doctor thinks however from the character of the disease in the right, that its course will be rather rapid. Doctors opinion is that the report about finding him helplessly drunk the other day is entirely a mistake, for although he does not deny being wild in former days, yet Doctor does not think anyone could very easily make him drunk in his present state of health. He is unable to sit up. His wife was perfectly sober when Doctor saw her, and cannot say whether she is addicted to the use of liquor or not. Although one or two points about her indicated such to be the case, yet on the whole, appearances were in her favour. The husband has been ill seven Months and that with six Children would account for the condition of the House. Some of the Children are bad, particularly one boy.

1118. Jane Boyle: in Case 1110. Doctor Visited, and states: I have examined Jane Boyle at the Haven. She was very quite [quiet] when I saw her, but said she was suffering from motion on the brain and had applied an imaginary blister to her neck with benefit. The matron tells me that she is harmless, but quite insane at times, generally at night, fancying that some person is always after her, coming out of Cupboards and all sorts of impossible places to catch her, and after disturbing the House in her terror. Formerly she used to barricade the door with

boxes, chairs, [etc.] but latterly she has not. There is no doubt the poor woman is insane and I think it would be an act of cruelty to expose her to the annoyance she would experience from the class of woman she would have to mingle with in the House of Industry. The Lunatic Asylum is the only fit place for her.
